--68. The communication system of claim 63, wherein the communication system allocates the timeslot one time division multiple access frame at a time, and the at least one transmitter uses the training sequence to indicate to which receiver or receiver group the timeslot is allocated in each frame.--

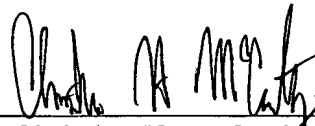

REMARKS

Claims 35-68 are pending. By this Amendment, claims 1-34 are canceled without prejudice or disclaimer and claims 35-68 are added. By this Amendment, no new matter is entered because new claims 35-68 are fully supported by the originally filed specification and claims. Prompt examination and favorable consideration on the merits are respectfully requested.

Respectfully submitted,

PILLSBURY WINTHROP LLP
